SHEPHERDS BUSH GREEN

Start at Shepherds Bush Central Line Station.

This photograph of the station was taken before 1908.

1a. How do we know it is the same place?

Opened in July 1900, it was the first electric, deep tunnel, railway into Central London. It was called the Central Line Railway.

The Central Line from Shepherds Bush was known as the ‘Twopenny Tube’ - there was a uniform two penny (2d) charge for any distance, so facilitated travel for working people. It became one of London’s busiest rail - tram interchanges, hence the scene in the photograph.
